The largest

copper tubes producer
in Europe

ElvalHalcOR Hellenic Copper and Aluminium industry S.A. (ElvalHalcOR) is a global industrial leader with advanced technology and 84 years' experience and expertise. Focused on sustainable operation and growth, ElvalHalcOR offers aluminium and copper processing industrial products and solutions for dynamically growing markets.

ElvalHalcOR was formed in December 2017 via the merger of Elval (the aluminium rolling division of ElvalHalcOR), a leading European aluminium rolling company, and HalcOR (the copper & alloys extrusion division of ElvalHalcOR), the largest copper tubes producer in Europe. ElvalHalcOR is listed on the Athens Stock Exchange (ELHA).

The Company has an extended production base across 17 industrial plants with cutting-edge technology equipment. ElvalHalcOR has a highly extrovert business

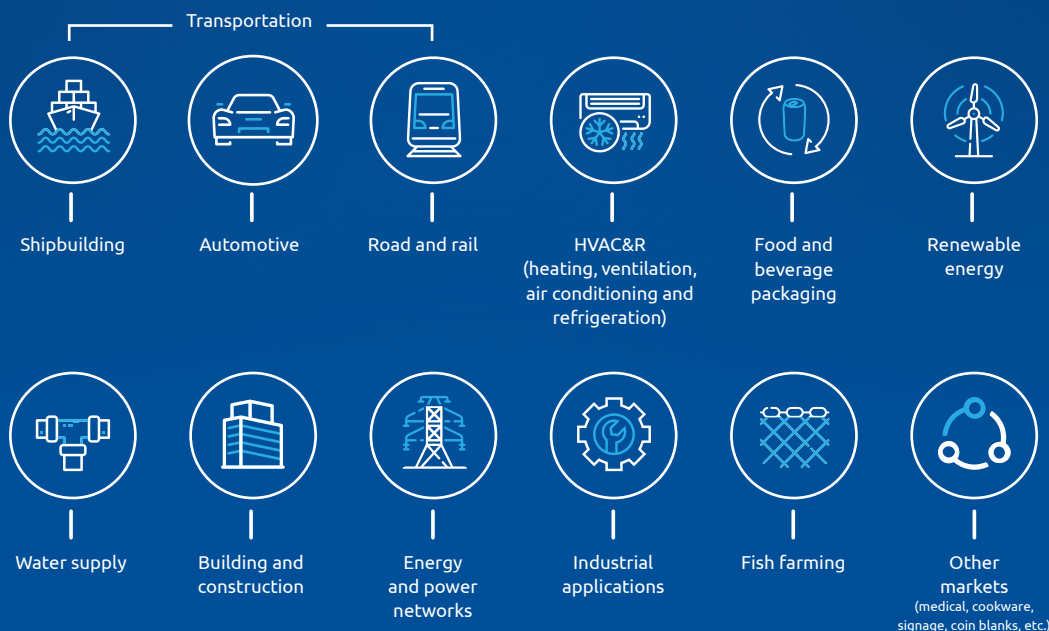

model with solid presence in more than 100 countries by developing sustainable and high value-added products and solutions that meet the requirements of the most demanding customers.

ElvalHalcOR puts emphasis on continuous investments in research and technology, ongoing care for its talented and highly specialized people, and nurtures a customer centric-philosophy.

ElvalHalcOR is committed to sustainable growth, according to the principles of responsible production. It seizes the opportunities created in rapidly developing markets fueled by global megatrends: the transition to climate neutrality, circular economy and the growth of renewable energy and e-mobility by offering sustainable and high value-added products and solutions that meet the requirements of the most demanding customers.

ElvalHalcOR contributes to climate neutrality and circular economy

by offering high value-added sustainable aluminium and copper products and technologically advanced tailor-made solutions in growing dynamic markets, such as:

Aluminium segment

Flat rolled aluminium products and solutions for:

- Packaging (food and beverages)
- Sea, road and rail transportation, automotive, shipbuilding
- HVAC&R
- Building and construction
- Cookware
- Energy and power networks
- Renewable energy sources
- Industrial applications

✈ www.elval.com

✉ info@elval.com

Aluminium foil and aluminium-based packaging materials for the following applications:

- Flexible packaging for food, pharma and tobacco
- Semi-rigid food containers
- Cable wraps
- Tea lights
- Heat exchange equipment
- Technical applications
- Household use
- Hair care
- Li-ion batteries

Aluminium rolling shutters, insect screens and vertical shading systems for housing and professional applications:

- Aluminium rolling shutters and aluminium boxes with and without polyurethane foam
- Pleated and classical insect screens for doors and windows
- Pergolas and vertical shading systems
- Octagonal galvanized axis and rolling shutter accessories
- Becker tubular motors and automations

✈ www.viomal.com

✉ info@viomal.com

A complete range of products in coated aluminium and solutions for building envelope applications:

- etalbond® Aluminium Composite Panels for façades and digital printing
- Elval ENFTM Solid Coated Aluminium Sheets for façades
- orofe® Pre-painted Aluminium Coils and Sheets for roofing applications
- Ydoral® Pre-painted Aluminium for rain gutters
- agraphon® and arypon® Functional Coating Systems
- Elval EZTM False Ceiling System
- Coated Aluminium Strips for flashings and rolling shutters

Architectural aluminium systems for sustainable and energy efficient

- Doors and windows
- Façades
- Shading systems
- Cladding materials
- Supplementary products

Aluminium extruded products for diverse Industrial applications. Customer bespoke profiles for:

- Electrical and electronic applications
- Heat syncs (radiators)
- Special machining
- Furniture
- Applications and machine tables
- Bicycle rims
- Industrial parts

HALCOR

Copper tubes with or without plastic coating or industrial insulation for:

- Water supply and heating networks
- Underfloor heating - cooling
- Air conditioning
- Refrigeration
- Solar energy and geothermy
- Natural and medical gas distribution networks
- Other architectural and industrial applications

Extruded copper alloy products:

- Rods
- Tubes
- Sections
- Wires
- UR30® copper alloy wire and net for fish farm cages

✈ www.halcor.com

Copper segment

SOFA MED

Rolled and extruded copper and copper alloy products used in a diverse range of building and industrial applications:

- Sheets
- Strips
- Plates
- Disks
- Rods
- Bare and plated copper bus bars
- Profiles
- Components
- Wires

✈ www.sofiamed.com
