

ELVALHALCOR

HELLENIC COPPER AND ALUMINIUM INDUSTRY S.A.

ElvalHalcor: Beyond Metals Shaping Tomorrow

Aluminium and Copper
solutions tailored
for **sustainable growth**.

R&D Technology Innovation: at the heart of ElvalHalcor

As a leading manufacturer and solutions provider in the aluminium and copper industries, we provide customers with world-class technological solutions. We focus on customer requirements and then utilise ElvalHalcor's proven know-how and expertise, reliable alloys and ground-breaking technologies to serve those requirements best.

Elval's onsite Technology Center (housed in our facilities at Oinofyta) is the cornerstone of our innovative solutions. Additionally, we have developed a state-of-the-art innovative Tube Heat Transfer Laboratory at Halcor's plant, adhering to international standards. These facilities enable ElvalHalcor to effectively meet a wide range of customer specifications.

Who we are.

ElvalHalcor: An international force in the aluminium and copper manufacturing.

We are driven by our purpose: to contribute to a sustainable future for everyone.

We operate responsibly with the aim of creating added value for all of our stakeholders.

€3.4 billion
revenue (2024)

14
state-of-the-art
production plants

€1 billion
investments during
the last 10 years

A leading
flat-rolled aluminium
manufacturer in Europe.

No.1
copper tubes
producer in EMEA
(by volume) *

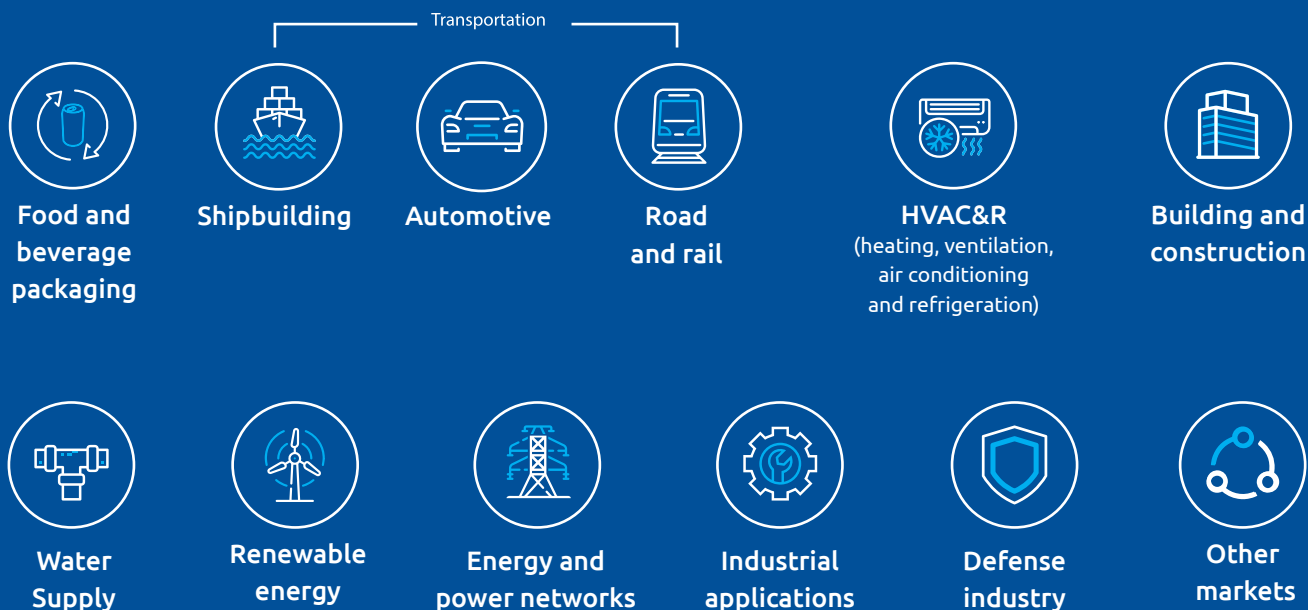

90
products distributed
in more than 90 countries

** Based on estimates by Cu2 Consulting (data regarding the volume of copper tubes production).*

What we do.

Our advanced aluminium and copper solutions, span the globe in over 90 countries, tailored for the most dynamically growing markets.

Our way ahead.

Aligning with sustainability megatrends.

ElvalHalcor's products and solutions cater directly to megatrends, such as circular economy enabled by products with high recycled content, the transition to climate neutrality driven by e-mobility, sustainable urbanization reflected in energy efficient buildings, technological advancements and digitalization.

Circular economy

- Low carbon and recyclable products
- Products with increased recycled content
- Sustainable packaging
- Plastic replacement

Transition to net zero

- Electrification
- Power storage
- E-mobility
- RES growth

Urbanization

- Sustainable and smart buildings
- Energy efficiency in buildings
- Health & wellbeing

Technological advancements

- Industry 4.0
- Digitalization
- Big data mining and cloud computing
- Machine learning and predictive analytics
- System Integration and optimization tools
- Smart Factory

Committed to sustainable growth.

We aim at delivering continuous and sustainable growth value over the long term

Strategic pillars

Energy transition

Progressive transition to the use of RES for electricity needs, based on the technical and financial possibilities that arise.

Carbon footprint

Short-term and long-term goals for reducing carbon footprint from ElvalHalcor's business.

Health and Safety

5-year plan for continuous improvement of safety and health of our people in all industrial activities.

Supply chain

Responsible supply chain management and supplier assessment, based on ESG criteria. Strategic partnership with the EcoVadis ratings platform.
